Medicare Beneficiary Counts[†] for Chronic Conditions for 2000 Through 2006**

Table B.1

Page 2 of 2

[†] Beneficiaries may be counted in more than one chronic condition category.

[▲] Chronic conditions have a 1 to 3 year look-back time period (reference period). Since the data included in the CCW begins in 1999, beneficiaries cannot meet any chronic condition algorithm that has a 2 or 3 year look-back until 2000 or 2001 (respectively). Please refer to the CCW Condition Categories for more information.

NOTE: These counts consider fee-for-service administrative claims criteria only. The beneficiaries included in these counts may have any combination of Medicare coverage, including full or partial fee-for-service and/or HMO coverage. The application of coverage restrictions/criteria will impact the size of these samples.
