¹ SNF refers to skilled nursing facility; HHA refers to home health agency; HOP refers to hospital outpatient. Carrier claims refer to claim types 71 and 72 (not durable medical equipment [DME] claim types 81 or 82), and excludes any claims where all service lines contain a Berenson-Eggers Type of Service (BETOS) code equal to D1A, D1B, D1C, D1D, D1E, D1F, D1G (which is DME), or O1A (which is ambulance services). The intent of the algorithm is to exclude claims where the services do not require a licensed health care professional. When two claims are required, they must occur at least one day apart.

² ICD-10 codes are effective 10/2015. Researchers may be interested in confirming the code(s) of interest in the accompanying claims data files.
